KELLOGG PEACE PACT VOTE IS NOW ASSURED

Agreement Reached Between Senators Championing Treaty and Cruiser Bill

VOTE ON PEACE TREATY IS TO BE TAKEN FIRST

Borah to Fight for Treaty to Bitter End While Jim Reed Is to Oppose

WASHINGTON, Jan. 2. (AP)—An agreement to put the Kellogg peace treaty pact ahead of its companion measure on the senate calendar, the cruiser construction bill was entered into today by senators interested in the two proposals.

Chairman Borah of the foreign relations committee, in charge of the peace treaty, and Chairman Hale of the naval committee, sponsor of the cruiser bill, entered the agreement which assures a vote first on the treaty. The arrangement is expected to lead the way also to an early vote on the naval construction bill following disposal of the treaty.

When the senate reconvenes tomorrow Senator Hale will deliver a speech on his naval bill and then give way to Senator Borah who will move to take up the Kellogg treaty.

Senator Borah announced he would keep the treaty constantly before the senate until it is voted upon and he anticipates early and favorable action.

Senator Reed, Democrat of Missouri, will wage a fight against the treaty. He will gain some support from Senator Moses, Republican, of New Hampshire, who is asking adoption of an interpretative resolution stating America's reservations in ratifying the pact. However, senate leaders believed that if the treaty is allowed to go to a vote they will not filibuster.

A more serious threat impends against the bill to construct fifteen new cruisers, with Republican independents under the leadership of Senator Norris of Nebraska opposing it. However, it is believed that if the treaty is allowed to go to a vote they will not filibuster.

Attempts will be made to modify the naval bill to provide for only five or ten cruisers. The request of President Coolidge for elimination of the clause requiring construction of the vessels within three years will get support only from opponents of the bill. Chairman Hale will oppose elimination of the time clause.

3 Ribs Broken in Train-Truck Crash

Ralph Meacham was able to be moved to his home Wednesday from the Sanitarium of Paris where he was taken late Tuesday afternoon, three ribs having been broken when the truck he was driving for the Allied freight lines and an eastbound Texas and Pacific train collided at Annona.

Otto Wyatt of Oak Grove who was on the truck with him, received minor injuries but was able to go home after the accident. The truck was demolished. The collision occurred near Stiles Bros. store, where the T. and P. road passes through Annona.

GRID STAR WINS DAMAGES FROM WESTERN UNION

AUSTIN, Jan. 2. (AP)—A judgment for \$500 damages against the Western Union Telegraph company for Oscar Eckhardt, former star in football and baseball at Texas university was sustained today by the supreme court, but interest on the amount was denied. Eckhardt, a member of the New York Giants professional football squad for the past year, claimed the telegraph company's alleged delay in delivering a telegram to him caused him to lose a football contract.

GOVERNMENT RECOVERS NAVAL OIL LANDS

WASHINGTON, Jan. 2. (AP)—The government succeeded in its effort to recover from the Standard Oil company valuable oil lands in the Elk Hills naval oil reserve in California. In its decision the court set aside one more act of Albert E. Fall as secretary of the interior. It had been contended that Fall did not determine whether the land was known to be mineral land in 1923, when the matter was brought to his attention.

When the question was before Fall the government charged he gave it no opportunity to present testimony or to be heard in opposition to the position taken by the company.

MASONS' STUDENT LOANS AT HUNDRED THOUSAND MARK

Nearly Six Hundred Texas Students Aided By Fund J. G. Wooten Reports

Loans totaling more than \$100,000 have been made to Texas students by the Masonic loan fund of Texas since its inauguration in 1925, with Prof. J. G. Wooten, city superintendent of Paris schools as secretary and active administrator of the fund. J. B. Sawtelle of Waco is the chairman of the educational committee of the grand commandery of Texas which maintains the fund.

Mr. Wooten has served continuously in his capacity since the loan fund was first put into operation, and his services have been without remuneration.

His recent semi-annual report shows that a total of \$108,423 has been loaned to 574 students up to December 1, 1928. \$11,450.75 having already been repaid in interest and principal. This is an excellent record when it is realized that the loans have increased annually, and that students must finish their courses before they are in a position to start repayment.

During the past year, 1928 the loan totaled \$28,178, made to 89 boys and 61 girls. Of these 22 were freshmen, 18 sophomores, 45 juniors and 65 seniors. Only two cancellations, not included in the figures, were made.

An even fifty institutions are represented by the students to whom the loans were made the past year, the University of Texas and Texas A. and M. college heading the number of loans with twenty students each. The majority of the other schools represented are also Texas institutions, though there are numerous out of state schools included. Several vocational and professional schools are listed in Mr. Wooten's report, in addition to the purely academic institutions.

The full report for the 1928-9 period shows a total of 574 loans, 24 to freshmen, 70 to sophomores, 179 to juniors and 231 to seniors. During the entire period there have been only 11 cancellations and these are not included in the above figures.

For 1924-5, the first year, the total loans were only \$9,150; the amount jumped to \$22,375 in 1925-6; in 1926-7 they were \$24,790; and for the 1927-8 term they were \$28,300, and to December 1 for the 1928-9 period the total is \$28,178.

The payments from the time of the first loans to April 1, 1928 were \$6,768.53 for principal and interest, while from April 1 to December 1 of the past year, they amounted to \$4,774.23, indicating the increase as additional students are able to repay loans.

While the fund was founded and has been maintained by the grand commandery, gifts totaling \$12,500 have been made by the Royal Arch chapter of Texas. Every member of the commandery's committee administering the fund is a past grand commander of the Knights Templar of Texas, with the exception of John Temple Rise of El Paso, who as grand senior warden, is in line for that office, the highest the state commandery confers. Other members besides Chairman Sawtelle and Prof. Wooten are R. L. Ball of San Antonio, L. G. Hawkins of Vernon and Mr. Rise.

The full report for 1928-9 will be submitted by Mr. Wooten to the annual meeting of the grand commandery at Greenville in April.

TRUCK DRIVER CHARGED WITH ASSAULT TO KILL

SAN ANGELO, Jan. 2. (AP)—A complaint charging Arthur Kelly, truck line employee, with assault with intent to murder C. W. Cren, assistant chief of police at McCamey, was filed today. Chief of Police W. C. Fowler posted a \$50 reward for Kelly's arrest. When received a four-inch knife wound beneath the right lung at a purported argument with Kelly. He was operated on last night.

Price Discrimination Illegal WASHINGTON, Jan. 2. (AP)—Manufacturers who make price and other discriminations among customers are subject to prosecution under the Clayton anti-trust act.

The supreme court made the ruling today in a case brought from Indiana by the George Van Camp and Sons company against the American Can company.

SEVEN CARS PILE UP WHEN PLOTTERS WRECK TRAIN

Several motives, among them a possible mail robbery, have been advanced for the derailing of the "Missionary" limited in the desert near Hesperia, California, which sent seven sleeping cars into the ditch, injuring 30 persons. Many miraculously escaped death. Plotters loosened a rail on a curve, hid the removed spikes and bolts under bushes and drove off in an automobile. Photo shows the wrecked train.

TEXAS IN GRIP OF COLD WEATHER

Lowest Temperatures of the Season Are Reported Generally Over State

The lowest temperatures of the season were experienced in the early hours of Wednesday morning here, when the mercury dropped to 20 degrees, with a maximum of only 42 degrees during the day.

Despite precautions of householders, numerous water pipes burst and plants were killed by the freeze in many instances. Considerable ice was noticed, especially where there was any open water, and there was a crust around the edges of even the larger ponds and lakes.

The cold was intensified from the day before, an unusually frigid New Year's day, with a low temperature of 24 degrees and a maximum of 54, which made yesterday's maximum of 12 degrees lower all the more noticeable.

DALLAS, Jan. 2. (AP)—All Texas today was in the grip of the winter's coldest weather as temperatures tumbled during the night, but the snap was expected to be brief in its duration. Rising temperatures were promised tonight by the government weather bureau here in practically all sections of the state.

Although north and west Texas counties felt fullest the sting of icy blasts, the wave extended as far south as the Gulf coast, reported by the weather bureau disclosed. Del Rio reported a minimum of 28 degrees and in sunny San Antonio the mercury stood at the same level. Garrettsville was slightly warmer, the thermometer registering 34 degrees in the seaport town.

Other temperatures reported to the weather bureau were: Abilene 24, Amarillo 24, Austin 24, Corpus Christi 35, El Paso 24.

COOLIDGES RETURN AFTER VACATION

En Route With President Coolidge to Washington, Jan. 2. (AP)—Leaving behind him the soft breezes and mild temperatures of Georgia's semi-tropical islands, President Coolidge sped northward today, bound for Washington and Texas, with the exception of John Temple Rise of El Paso, who as grand senior warden, is in line for that office, the highest the state commandery confers. Other members besides Chairman Sawtelle and Prof. Wooten are R. L. Ball of San Antonio, L. G. Hawkins of Vernon and Mr. Rise.

The full report for 1928-9 will be submitted by Mr. Wooten to the annual meeting of the grand commandery at Greenville in April.

Mr. Gibbs is still confined to the sanitarium.

Approval of Water Bonds Demanded

AUSTIN, Jan. 2. (AP)—Claude Pollard, attorney general, will be forced to approve \$2,000,000 in bonds issued by the Tarrant County Water Control and Improvement District No. 1 as the result of a supreme court decision today granting a writ of mandamus sought by the improvement district.

The district issued \$5,500,000 in bonds but only \$2,000,000 was submitted to the attorney general. In refusing approval of the bonds Pollard questioned constitutionality of an act of the legislature of 1925.

FIRE DESTROYS OLD HOUSTON SKYSCRAPER

HOUSTON, Jan. 2. (AP)—Fire gutted two rooms of the Binz building, Houston's oldest skyscraper, and caused damage to several others early today while street car traffic was held up for more than an hour and hundreds of persons were attracted to the spectacular blaze at the corner of Main and Texas.

Two of the rooms and their contents belonging to the Levitt jewelry company were a total loss. A few hours earlier fire broke out in a battery of stills near Houston belonging to the Crown Oil and Refining company. Although the battery was said to be valued at \$500,000, M. C. Enlen, vice president of the company, placed the damage at between \$4,000 and \$5,000.

COUNTY CLERK FILES REPORT

Ausmus Has Returned More Than Nine Thousand Dollars During Entire Tenure

J. E. Ausmus, retiring county clerk, returned to Lamar county in excess fees the sum of \$1,989.55, after deduction of routine disbursements of office (consisting of salaries for the clerk and assistants for the year ending Dec. 31, 1928, the final report for the year made public Wednesday indicated. Total receipts for the office last year amounted to \$8,836.42, while disbursements aggregated \$6,846.87. The difference of \$1,989.55 represents excess fees of which the county clerk retains 25 per cent and also a sum of \$100 for keeping records. This totals \$758.92 and deducted from the total excess fee collection leaves a balance of \$1,879.75 due the county. Added to this, however, is an item of \$29.80 due the county treasury representing fees collected from other officers, less a 10 per cent collection charge.

In connection with his final statement, Mr. Ausmus points out that during his entire tenure of office he has collected from all sources a total of \$39,192.91, and after having deducted all expenses has paid the treasury the sum of \$9,282.91.

TRAINMEN HURT IN COLLISION

Passengers Suffer Minor Injuries; Engines Come Together, Head-On

PALESTINE, Jan. 2. (AP)—An engineer and a fireman were hurt and scores of persons shaken up when two I-G. N. passenger trains collided on a straight stretch of road at Red Branch, between Lovelady and Trinity this afternoon.

William T. Murrell, engineer and W. J. Tonahill, fireman, received slight injuries when they jumped, just before the collision. A check up of passengers revealed nothing worse than cuts and bruises.

Both engineers were warned in time to close their throttles and the trains had almost stopped when they met.

Damage to the locomotives was slight.

ARREST ANOTHER SUSPECT IN SLAYING

BORGER, Texas, Jan. 2. (AP)—The arrest of another suspect was expected today in the fatal shooting Sunday night of a Hedley night watchman by three men caught while robbing a store. PLANE IN AIR FOR THIRTY-SIX HOURS CONTINUES FLIGHT

Experts Declare Big Army Machine Has Passed Crisis Toward New Record

GIRL SETS NEW WOMEN'S RECORD OF TWELVE HOURS

Small Plane Refueling from Catapult Disqualified for Touching Ground

LOS ANGELES, Jan. 2. (AP)—Confidence that a new world's record would be set in the endurance flight of the army plane, the Question Mark, was expressed tonight by air corps officials as the big plane continued to soar over southern California on a second 24-hour period in the air. Experts said the most decisive part of the flight was reached when the first 24-hour period was completed.

The plane was idling along smoothly late today as it approached the thirty-sixth hour in the air.

New Women's Record.

LOS ANGELES, Jan. 2. (AP)—A new world's endurance flight mark for feminine flyers was set today by pretty Miss Bobbie Trout, 18 year old Los Angeles girl, when she landed her Golden Eagle plane at 8:36 p. m. tonight, setting a new continuous flight time of 12 hours and 11 minutes.

The endurance flight record for women broken by Miss Trout was 8 hours and 6 minutes made by Miss Viola Gentry at Roosevelt field last month.

Refueling Is Successful.

MARSHALL, Mo., Jan. 2. (AP)—Blaine M. Tuxhorn brought his airplane to land here at 7:48 o'clock tonight after having been in the air slightly less than eleven hours in an attempt to break the refueling endurance record for sustained flight.

On landing his little open cockpit monoplane, Tuxhorn announced the descent was not caused by any mechanical difficulty. He explained that upon approaching the earth to pick up fuel from his synchronized catapult, the wheels of his landing gear touched the earth, which disqualified him.

Notes dropped by the flyers said they had suffered no ill effects during the day of exposure in the near-zero temperatures.

Seven pickups of fuel and supplies had been made at 4 p. m.

Woman Repudiates Confession of Boy's Slaying on Her Chicken Ranch

2 Mrs. Northcott SAN QUENTIN PRISON, Cal., Jan. 2. (AP)—Mrs. Sarah Louise Northcott today repudiated all confessions she has made in which she admitted killing boys on her chicken ranch at Wynneville, Cal. The repudiation was made in the presence of Warden James B. Holohan.

COTTON PRICES SAG ON INACTIVE BUYING

NEW YORK, Jan. 2. (AP)—The New York cotton market opened the new year with a decline of 15¢ to 12¢ a bale on vigorous liquidation on the part of discouraged longs who had anticipated a more active buying movement. The new contracts calling for southern delivery was started today in October and later deliveries. The October selling had about 15 points under old October and about 33 to 34 points over October in New Orleans. Prices for January declined to 18.77, compared with 20.18 at the close on Monday. March contracts sold down to 19.32 compared to 20.20 on Monday.

FRISCO SUSTAINED IN REMOVAL OF SHOPS

Death Verdict Wins

Although Judge Robert D. Bailey of Mingo county, West Virginia, refused to impose the death sentence because he believes the man innocent, after he had been convicted of murder, Clyde Beale, above, will be hung next May 11, according to the ruling of Special Judge J. W. Maxwell. A jury found Beale guilty in the first degree of killing Mrs. Rissie Perdue at Vulcan, W. Va., which makes the death sentence mandatory. The defense plans an appeal to Governor Gore.

TWO STUDENTS OF MEDICAL SCHOOL BURNED TO DEATH

Baylor University Boys Lose Lives in Dallas Rooming House Fire

DALLAS, Jan. 2. (AP)—Trapped in one of the structures, two Baylor university medical students perished in flames which destroyed three dwellings today.

The dead are: James H. Martin, 28, Itasca, and Samuel R. Scott, 23, San Antonio. Miss Dora Humble, a nurse was thought to have been burned to death in the fire but was found tonight nursing a patient at the patient's home and unaware that firemen were searching the ruins for her body.

Search of the ruins of the building and that of another structure destroyed at the same time was started for report for classes. Fellow students said they knew the two had been sleeping in the rooming house.

The only other occupant, J. Malcolm Daniels, was aroused by crackling flames and smoke and leaped to safety from a second story window.

A woman told of screams she heard coming from the building as the blaze gained headway.

SAYS INJUNCTION NOT ENFORCEABLE

Oil Interests Send Former Senator to Fight Injunction On Leases

FORT WORTH, Jan. 2. (AP)—Lloyd E. Price, local attorney, was in Austin today to begin a court fight to bring about the dismissal of the injunction suit which restrained the sale of leases on 54,000 acres of University of Texas oil lands. The sale had been set for today.

Before leaving Fort Worth, Price said he would present decisions before the trial court in an attempt to prove that State Land Commissioner Robison, named in the restraining order, could not legally be enjoined from selling the leases. Price represents clients who submitted bids for the leases after Robison had advertised the sale.

"The present law that deals with the sale of university lands was enacted in 1925," Price said. "It was attacked in the courts as unconstitutional but it was held to be valid by the supreme court. This law states that it is mandatory to offer for sale any gas or oil leases held by the university when request is made for such sale."

Price said that he verbally requested and later requested in writing that the leases be offered for sale so that his clients might have the chance to bid on them. He said that all steps leading up to the time the injunction was granted were, in his opinion, legal steps, and should not meet the interference of a court.

ROBISON WOULD DISSOLVE LEASE SALE INJUNCTION

Land Commissioner will Act as Own Lawyer in Resisting Court Order

OPENS THREE BIDS ON UNIVERSITY OIL LANDS

Fight May Go to Supreme Court As Robison Claims Court Order Not Airtight

AUSTIN, Jan. 2. (AP)—A motion to dissolve the temporary injunction against sale of Texas university lands oil leases issued yesterday by Judge George Calhoun in district court will be filed by J. T. Robison, land commissioner, as soon as he can prepare it.

He said he would resist the injunction in the courts with all his ability. In the absence of provision for paying legal talent in such a contingency he probably will act as his own attorney, he said.

"The law does not provide for employment of a lawyer and I am too poor to pay one out of my own pocket," he said.

Robison today opened three bids which were on contracts advertised but sale of which he agreed to postpone last week when Governor Moody threatened a special session of the legislature if necessary to forestall the sale. In opening the three envelopes Robison did not accept the bids but told the bidders the sale would be postponed until January 22 in compliance with his promise to the governor. He said the injunction did not restrain him from opening the bids on the lands, sale of which he voluntarily had postponed, but affected bids only on tracts he had refused to withdraw temporarily from the market.

All envelopes which notation showed they contained bids on acreage not involved in litigation were opened.

Many envelopes, however, had nothing to indicate tracts sought and these were set aside. Robison declared that not less than 1,500 bids were not opened in respect to the injunction.

Robison declared that he had been told by bidders that they expected today's scheduled sale of rights on 103,000 acres to bring the university a minimum of \$1,000,000 cash bonuses.

The Dixie Oil company of Shreveport, La., submitted a bid of \$14,945, in addition to the statutory lease rentals, for one section. The same company had bid in a bid on a tract near the one it offered to lease today, but this was one of those that was not opened.

Other offers in the envelopes opened were from F. K. Campbell, Jr. and H. L. Brown of Ft. Worth, who jointly offered from \$171 to \$173 per section for lands in Andrews, Crane and Ward counties, and R. R. Ogden of Austin, who bid 18 cents an acre on the entire bid on advertised lands.

Robison told a large number of bidders, who gathered in his office, that when the other bids are finally opened they will be duly filed and that all rights will be preserved and protected so that should the injunction be finally dissolved they will not lose their priority.

AUSTIN, Jan. 2. (AP)—Probabilities that the University of Texas oil lease controversy might end its way to the supreme court within the next day or two, developed today when Land Commissioner J. T. Robison claimed that the injunction issued yesterday to stop the sale was not entirely "water tight."

Robison claims that the district court enjoined him only from opening the bids to the tracts that he had refused to postpone from sale today, the order not applying to tracts he had voluntarily agreed to postpone.

He stated that if the envelopes indicated that the bids were on the lands he claims are not covered by the injunction, he will open these, although rejecting all bids in compliance with his promise to postpone the sale.

"When I do this the bidders can then seek a mandamus in supreme court to compel me to accept their offers and make awards of the leases," he said.

Robison declared that he is anxious for an early hearing on the temporary injunction issued by Judge George Calhoun of the 33rd district court yesterday on application of the state of Texas, joined by the board of regents of the University of Texas.

"All I ask is an early hearing," he said.

ASKS INQUIRY INTO PROPAGANDA CHARGE

The LOW-DOWN

By Jack Lancaster

Once again we assume our occasional role of theatrical announcer to inform the world at large that the Plaza has made a sudden and unexpected switch of bookings for next week.

A new Vitaphone film has been put into view; one that seems to be the only attraction on the screen capable of standing up against "The Singing Fool." It is built

along the same lines, is replete with songs, cheek full of humor and carries a healthy amount of good old drama. Now playing in Dallas, it has taken that city by storm and, being made unexpectedly available to the Plaza theatre, it was set in for next week. The attraction we refer to is "My Man." The star Fanny Brice, is as famous as Jolson, both because of her inimitable songs and because of her talents as a stage comic.

We have had the pleasure of hearing Miss Brice a number of times, and each time we heard her she made our sides ache from laughter. With the added opportunities offered by sound pictures she should be even better than ever. Jolson was, you know! "My Man" is not all comedy, however, for the very title suggests elemental drama. (You are familiar with the song, of course.) What an attraction it must be—this Vitaphone all-talking feature.

The Plaza announces that, in addition to the above, next week's program will include a movie special by Van and Schenck, that popular team known through-

Schools Reopen
After Holidays

All public schools of the city resumed work Wednesday after the Christmas holidays, the six ward schools and the high school having half sessions yesterday but starting today on the regular full time schedules.

The junior college will re-open today according to B. E. Masters, the dean, with regular classes. Attendance at the city schools yesterday was not affected to a great extent by the prevalence of influenza, according to Prof. J. G. Wooten, the city superintendent, and unless the number of cases increases appreciably among the students, there appears to be no reason for its interference with the regular sessions.

OIL TEST TO BE
SPUDDED SUNDAY

Starting of Operations Scheduled for Early Afternoon if Rigging Complete

After some delay caused by inclement weather, machinery for the Bert L. Laubenstein oil test on the Johnson property two miles west of Paris is now being rapidly installed and the well will be spudded in Sunday afternoon. D. S. Head, chief driller, announced Wednesday. The rig was completed several days ago and rotary tools are now being set in place for a 2,000 foot test of the Kiamitia structure.

A set of boilers was being installed Wednesday. The well is located just one mile from the city limits and the derrick may be easily seen a short distance from the west highway. The location is easily accessible from the highway, a road leading directly north from the highway to the operation. Numbers of Parisians interested in seeing the beginning of operations at an oil well are expected to take advantage of the opportunity to witness the spudding operations. The exact time will be announced later but it is expected that the drilling would be begun in the early afternoon.

JOAN OF ARC IS FIRST
AMONG PARIS STATUES

PARIS, (P)—Statues seem to be scattered all over Paris, yet there are only 201 bronze or marble monuments to the famous men and women of France in the streets and squares. There are thousands of others, of course, in the museums and state buildings, and sculptured on walls, as on the facade of the Louvre.

Jeanne d'Arc, national heroine and now a saint, heads the list with four statues, two mounted and two afoot.

Next come Voltaire, Victor Hugo and Alfred de Musset with three each. The French, fond of oratory, show it by giving public honors to 22 statesmen, including among them Benjamin Franklin and George Washington.

The stage is represented by two, Frederick Lemaître and Sarah Bernhardt.

Film Education Compulsory

Pupils of all grades in Hungary will be compelled to view educational films, according to recent decrees of the Royal Ministry of Public Education. By the terms of its concession the Hungarian Dutch Pedagogical Co. must arrange for all primary, grammar, higher grades and agricultural post-graduate schools, excepting the municipal schools of Budapest, one exhibition each month of the school year. The program is to be supervised by the Ministry of Public Education. The Minister of the Interior has directed that in places not having proper exhibition halls or projectors, the motion picture theatres must arrange to show the pictures. The films will be shown during regular school hours, and each child is asked an annual admission fee of 40 cents, or five cents a film.

U. S. Car Stars in Poland

American enterprises gave this country more publicity at the recent International Fair at Poznan, Poland, than was received by others who had many times the number of exhibits. The distributor of an American automobile arranged a continuous run between Poznan and Warsaw under the auspices of the Polish Automobile Club, and that the car, a stock model, was able to cover 2,250 miles during the eight days without mechanical replacements of any kind, attracted much interest among the record crowds. Other American cars gave demonstrations of hill climbing, brake power and

FLU
is now Epidemic!

Compared with 1918, this epidemic, so far, is mild; and yet, in spite of vastly increased capacity, the Vicks laboratories are once more operating night and day to meet the emergency demand for more and more Vicks VapoRub. Over 432,000 jars are now being produced daily.

How best to use Vicks VapoRub

1. AS A PREVENTIVE

Several times a day, insert Vicks up the nostrils. Also melt a little night and morning in a bowl of boiling water and inhale the steaming medicated vapors. This helps to ward off germ-infection.

2.—IF A COLD STARTS

If possible, go home and go to bed. Take a laxative and a hot lemonade. Apply hot, wet towels over throat and chest until the skin is thoroughly reddened. Then rub vigorously with Vicks. Spread on thickly and cover with warm flannel. Leave the bed-covering loose, so that the vapors, released by the body-warmth, may be freely inhaled. At the same time, Vicks also acts through the skin like a poultice. Repeat this treatment every four hours, eat lightly and stay in bed until the cold is broken. Complete rests helps the body throw off the cold more quickly.

3. AFTER A FLU ATTACK

Physicians advise that the chief danger in this epidemic is AFTER influenza. Then, more than ever, colds, attacking the weakened system, may lead to bronchitis, sinus-trouble or pneumonia. This is especially true of children or old folks. Head even the slightest cold as a danger signal. Vicks is especially valuable here, because it is applied externally and so can be used freely, as often as needed, without upsetting delicate digestions, as too much "dosing" is so apt to do.

DECOMPOSED WATER SEEN
AS CHEAP FUEL SOURCE

PITTSBURGH, (P)—The time when water will become a large, important and cheap part of universal fuel was forecast before the second international conference on bituminous coal here by A. T. Stuart, consulting engineer of Toronto. He predicted that solid fuels would largely disappear, to be replaced by gaseous fuels and liquids that may be gasified readily. This would be done by liquefying coal in hydrogen, and the hydrogen would be obtained from water. Stuart estimated that for each ton of coal so used, one and a third tons of water would be required. The plants for producing this fuel would be located at water power sources, the electricity from the water power being used to decompose the water and obtain hydrogen.

GERMANY IS EXCITED
OVER NEW OIL GUSHER

PEINE, Lower Saxony (P)—An oil gusher producing ten tons of oil within one hour was struck in the Oberg field near here. When the drill penetrated to a depth of 1,600 feet, the pressure of gas suddenly caused the oil to spout to a height of 60 feet and in such a volume that an emergency dam had to be quickly constructed. This precipitate flow of oil soon stopped, but immediately began again when drilling was resumed.

FRANCE EXPECTS RISE
IN MOTOR POPULATION

PARIS (P)—France is ready for fifty million automobiles, so far as license numbers are concerned. A new system, guaranteed to last for 75 years will go in effect next October. At the same time, duplicate records of all licenses are to be discontinued.

Two Grass Fires

Paris fire trucks were called to extinguish two grass fires Wednesday. No damage was reported on each fire.

Price Fixing Law Invalid

WASHINGTON, Jan. 2, (P)—The Tennessee law fixing the wholesale and retail prices on gasoline was declared invalid and unconstitutional today by the supreme court.

School Board Head Dies CONNOR, Jan. 2, (P)—D. B. Williamson, 79, president of the Montgomery county board of education, is dead at his home near here.

Lamar Study Club Meeting at Roxton

"The Red Badge of Courage" by Stephen Crane was the subject of an interesting lesson at Wednesday's meeting of the Lamar Study club held at Roxton at the home of Mrs. Cordie Webb Ingram, with Mrs. P. D. Jeffries as leader.

Roll call was answered with the names of generals prominent in the world war.

Papers read included "The Psychology of the Soldier" by Mrs. Ingram; "Crane and Writers of the Recent War" by Mrs. Jeffries; and "The Crane Revival" by Mrs. E. I. Jordan.

Style in prose narratives was the subject of a round table discussion and in the questions were taken up the effect of war upon literature, and spiritual values, Crane's place in American letters, and the literary qualities of the book under discussion.

Guests present were Mrs. W. L. Jones and Mrs. J. W. Watson of Roxton, Misses L. C. Dowlin, John Watson, C. W. Clark and Mabel Bailey of Pez.

Two courses were served for refreshment.

The next meeting on January 16 will be a business session for the election of officers and will be held at the home of Mrs. E. I. Jordan.

Twentieth Century Elects Its Officers

Officers elected by the Twentieth Century club Wednesday afternoon for the coming year are: President, Miss Emma Mitchell; first vice president, Mrs. F. G. Johnson; second vice president, Mrs. J. W. Cunningham; recording secretary, Mrs. Morgan Johnson; corresponding secretary, Mrs. Roy Caviness; treasurer, Mrs. J. B. Emmert. The directors, who will arrange for next year's course of study are: Mrs. W. B. Harper, Mrs. J. J. Early and Mrs. H. G. Wheat.

The meeting was held with Mrs. Early at the home of her daughter, Mrs. Ralph Matthieson, on Lamar road.

Informal discussion was held on the study for next year and a number of suggestions were given.

Refreshments were served at the close of the session.

The place for the next meeting on January 9 will be announced later.

LEGION AUXILIARY MEET SET FOR TODAY DEFERRED

Meeting of the American Legion Auxiliary has been postponed from this afternoon to the next regular date, January 15, when it will be held at the home of Mrs. C. K. Cotes on Graham street.

Illness prevalent among the members caused postponement of the meeting at this time.

GLENN FORTY-TWO CLUB DEFERS FRIDAY MEETING

The Glenn Forty-two club, scheduled to meet Friday with Mrs. J. A. Patterson at her home on South Twentieth street, has postponed the date to Friday, January 11, on account of so much illness.

DIVORCE INCREASES RAPIDLY IN FRANCE

PARIS. (AP)—Divorce has increased by leaps and bounds since the Naquet law authorized it in France, in 1881. In 1924, forty years after the passage of this law, there were 35,000 divorces, nearly 25 times as many as the first year.

The number of divorces increased slowly. It is only in the post-war years that it has attained proportions which many Frenchmen regard as disquieting.

Naquet, the author of the law, declared that the "reestablishment of divorce would not increase disunion in families." He thought it would rather decrease it, acting as "a safety valve which consolidates marriage and fortifies the family."

His predictions seem to have been short of the mark. In 1881, first year of the operation of his law, there were 1,657 divorces. Ten years later, this number had increased to 5,487. Twenty-three later, to 28,000.

A single civil court at Paris recently pronounced 95 divorces at one sitting.

ITALIAN HEIR KEEPS SOCIETY UP LATE

ROME. (AP)—Members of that diplomatic and noble circle privileged to have Prince Humbert of Savoy, heir to the Italian crown, as a guest at its functions are wondering how much sleep they are going to be able to get in after the dances this season.

Prince Humbert is an accomplished and indefatigable dancer. He dances with all the pretty girls, does his duty by the titled waitresses and invariably whisks his dowager hostesses around the floor for a turn or two.

His royal highness, being 24 and an infantry soldier by profession, kept it up until 4 or 5 o'clock in the morning all last season. And as it is a breach of etiquette to leave

the premises or shut up the house before the prince decides to go home, Roman society is looking forward to another season of late hours.

FLEETWOOD NOW IN INSURANCE FIELD

Wiley Fleetwood, for the last three and a half years connected

with the Emberson-Brown funeral home, has severed his connection with that establishment and is now connected with the J. C. Hathaway insurance company of Paris. Mr. Fleetwood came to Paris three and a half years ago from Terrell to join Emberson-Brown. Mr. Fleetwood is now residing on Crockett Circle.

WHO'LL SUCCEED TOM BLANTON AS HOUSE WATCH-DOG

Texas Congressman Responsible for Death or Delay of Many Private Bills

WASHINGTON—Who in the seventy-first congress will wear the mantle in the house laid aside by Tom Blanton of Texas?

For years Blanton has exercised with an energy under which many of his colleagues writhed at times self imposed functions as minority watchdog of the unanimous consent calendar. Blanton's "I object" has doomed more private bills to additional delay, at least, than any other single circumstance of house procedure.

And now, by virtue of the failure of his ambition to translate his sphere of activity to the senate, will not be present after March 4 next to vie with his democratic colleague of the senate, King of Utah, for honors as foremost "I object-er" of the new congress.

Objector's Power.

No doubt it is a useful function, this business of keeping an eagle eye on the flow of small bills. They are of a vastly variable nature covering every subject under federal jurisdiction. They are left to committee consideration, but as a safeguard an objection without stated reason by a single member of either senate or house closes the door against them on the floor.

The rules provide for this conservation of the time of the two houses and of the thousands of legislative enactments completed at

HIS BEST FRIEND STANDS GUARD

Following injuries sustained when struck by a hit and run motorist, Albert Payson Terhune, noted author of dog stories, has been convalescing at his home at Pompton Lakes, N. J. Gray Dawn, his faithful collie, is shown at his master's side, refusing to leave since the accident.

any session of congress, the great majority are of this type, put through without debate, roll call or a showing of hands of any sort, via the unanimous consent route.

Prevents Publicity.

Sponsors of the so-called private bills frequently find themselves in a trying position. To each individual sponsor a particular bill may be of great importance back home. It would be very fine if he could arise on the floor and state his case glowingly so that the home papers could picture him as battling bravely and successfully to get through a measure of great interest only to the state. Yet he also knows that the best way to get

it through is to keep absolutely still and let nature and the unobjected-to calendar take its course. Mere resentment over unnecessary speech making may prompt any member to shoot in an objection. To assume the role of calendar watchdog doesn't tend to make a senator or representative popular with his colleagues. Also, it makes it very difficult for the man wielding the fact or the threat of "I object" to get through small bills of his own. But the role does have its advantages. It insures the objector a degree of publicity he might not otherwise enjoy. Men have never been lacking to hold the fort in either house for this or some other good political reason.

WHEN IT LOOKS DARK to any weak, nervous or ailing woman Dr. Pierce's Favorite Prescription comes to her aid. Women in every walk of life today say Dr. Pierce's Favorite Prescription is a reliable medicine. It is made from roots and herbs, sold by druggists, in both fluid and tablets.

Mrs. Laura Boddy of 214 Ellis Ave., Fort Worth, Texas, said: "Dr. Pierce's medicine restored me to health when I was nothing but a physical wreck. When I was a girl growing I was very backward in developing. I grew puny, weak and sickly, my nerves gave way and I was so poorly I had to give up school. Upon the advice of an aunt I started taking Dr. Pierce's Favorite Prescription and the Golden Medical Discovery, and thru their use my health was restored. I developed into womanhood without further trouble." Send for trial package, 10c. Write to Dr. Pierce, Buffalo, N. Y., and write for free medical advice.

How an Expectant Mother Prepared for Baby's Coming

It has been proven conclusively that much of the suffering experienced during expectancy, as well as at childbirth, is entirely unnecessary.

Tight tissues, binding muscles, sensitive nerves—all tend to set up an aggravated condition—sapping strength and leaving the expectant mother unprepared to meet the crisis.

Mother's Friend is a comfort to expectant mothers. Externally applied, it relieves prenatal distress by relaxing tight tissues and muscles. And it is so soothing. Its daily use makes the skin soft and pliable.

Mrs. C. J. Hartman, Scranton, Pa., writes: "With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes."

Mother's Friend is the discovery of an eminent physician. It contains no narcotics or harmful drugs. For over three generations Mother's Friend has relieved expectant mothers of much useless suffering. Begin using Mother's Friend today. The sooner the better. Sold by drug stores—everywhere.

HERRICK CONFINED WITH INFLUENZA

U. S. Ambassador to France Reported Resting Easy in Illness

CLEVELAND, Jan. 2. (P)—Myron T. Herrick, United States ambassador to France, was resting easily today after a sudden turn for the worse in his illness of the last ten days that caused alarm at the Herrick estate at Gates Mills.

Dr. John Phillips, Herrick's personal physician, who made a hurried trip to the ambassador's bedside early today at the call of the diplomat's son, Parmley Herrick, said Mr. Herrick's fever had abated and his temperature was near normal.

Serious complications, Mr. Herrick is in no immediate danger, Dr. Phillips said. The sickness was described as asthmatic influenza.

About two weeks ago Mr. Herrick caught a cold which developed into a touch of influenza. Yesterday the ambassador was forced to go to bed and early this morning his breathing became difficult and he developed a fever.

Parmley Herrick immediately called Dr. Phillips, who rushed to the Herrick estate, taking with him two trained nurses and two tanks of oxygen. He found Mr. Herrick's condition did not warrant administration of the oxygen.

At the Herrick home it was said the chief difficulty was in persuading Mr. Herrick he was ill enough to remain in bed as ordered. The ambassador, who is 74 years old, insisted he would be up this afternoon despite his doctor's orders.

Evangeline Booth Not Allowed To See Brother

LONDON, Jan. 2. (P)—Permission to see her sick brother, General William Bramwell Booth, has been refused Evangeline Booth, commander of the Salvation Army in the United States.

General Booth's wife in refusing her sister-in-law's request said it would be impossible for her to see the commander-in-chief at present because it was feared he could not withstand the excitement. Mrs. Booth expressed regret at having to deny the American leader's request.

An official of Miss Booth's party said she could not obtain any definite information respecting the real condition of General Booth at international headquarters. The staff there appeared to be as much in the dark concerning the health of their commander-in-chief as was Miss Booth.

The official also said that Commissioner Catherine Booth, daughter of the general, had received a note from Commander Evangeline asking to see her. Commissioner Catherine replied that it was impossible for her to do so at the moment although both were in the headquarters at the same time. Later the commissioner left headquarters without attempting to see her aunt.

Evangeline Booth's headquarters said today that a sufficient number of votes in the high council

quarters without attempting to see her aunt.

Evangeline Booth's headquarters said today that a sufficient number of votes in the high council

all had been assured to remove General Bramwell Booth as commander in chief and effect a reorganization of the Salvation Army. It was asserted that more than the necessary three-fourths of the high councilors would follow the program of the American commander.

Perfect Health is always refreshing

If you are tired—lack pep—if your skin is not clear—if your appetite is "gone"—you owe it to yourself and friends to try S.S.S. Its tonic effects will surprise you.

WHEN your system is filled with rich, red blood, you don't have that tired, languid feeling when you awake in the morning.

Instead, you feel refreshed; ready to meet the world!

Your appetite is keen, you enjoy work or play. Your skin is clear—cheeks naturally rosy.

All this because rich, red blood is Nature's substance for building and sustaining the body.

Thousands have regained their strength and charm by taking a few bottles of S.S.S.—Nature's own tonic for restoring the appetite—building strength and clearing the body of so-called skin troubles.

You know a clear skin comes from within. Correct the cause—thru the blood—and pimples, boils, eczema and that sallow complexion will disappear.

For more than 100 years S.S.S.

has been giving relief in thousands of cases, as testified to in unsolicited letters of gratitude.

"I was troubled with pimples and blackheads. I took a course of S.S.S. It cleared my face and back. I think S.S.S. is wonderful. I have told many friends about S.S.S., and they are getting as much benefit as I did."

Less risk of "flu" if you do two things

Precautions you can take immediately

THERE is no use worrying every time you draw a breath for fear you will breathe in some influenza germs. Do the following two things and forget it: First, keep your nose and throat well protected, and second, keep your system in good condition. The chances are you will avoid contagion.

"As a first precaution, I am prescribing Mistol to all my patients, as it protects the nose and throat against the germs of influenza. Use it every morning, the first thing, before you go out. Again when you come home at night. Don't be afraid to use it freely; it will do no harm.

"Just tilt your head back and apply Mistol with the special dropper which comes with every package, until you feel it trickling down your throat. It will clear your head wonderfully, relieve any inflammation; it will help dry up a running nose. It has a soothing effect on the throat, soothe it for a sore throat or a little irritating cough. Above all, it protects the nose and throat against the germs of influenza.

"This is the first precaution; now for the second: Physicians agree that, particularly in times of epidemic, weakening of the system due to purging by laxatives and cathartics is not advisable; therefore, many doctors are prescribing Nujol. It is not a laxative or cathartic but a pure, natural substance that helps your

Takes no chances

system function at all times the way nature intended it to. Like pure water, it is harmless. In no case does Nujol cause weakening of the system. Take it night and morning; it will keep you in first class condition. You will have a far better chance to resist "flu" or any other diseases that are going the rounds.

"The combination treatment of Nujol and Mistol is a double safeguard against colds and influenza. Start this wise twofold precaution now. Don't delay. Put worry out of your mind. The chances are good that you will escape influenza and colds. Nujol and Mistol are on sale at all druggists."

TEXAN TO REOPEN WITH PRIZEFIGHT

First of Series of Cards Scheduled Tuesday with French Ac as Headliner

The boxing game is to get a new impetus in Paris. The Texan theatre, which has been the scene of many big scraps, will be reopened next Tuesday evening and Paris fight promoters

will present a weekly boxing show, according to present plans. The new management has made arrangements to give Paris fight fans to look at some big talent from the East and West, as well as showing local favorites. The first card will introduce some new faces and some of the hardest punchers in the game, it is reported. Petit Agneau, of France, will meet some worthy opponent in an eight round final. Agneau, since coming to this country, has had seven fights, winning six by the K. O. route, and going eight rounds to a draw with Jimmy Carter in the other. All of

his victims have been put away in the first or second round. The management is at work trying to secure the services of Carter for this go, but if he cannot be had, will bring in the best available heavyweight. The supporting card will show a promising young heavy from California by the name of Gene Hawk, who will meet some Paris favorite. Ken Willing, a rough-house middleweight will face another Paris lad and the other preliminaries will be announced later. "Honest, interesting battles, or your money back," is the slogan of the new management. Popular prices will prevail with ringside seats going at \$1, reserved, 75 cents, and general admission 50 cents. Tickets can be bought at box office at the Texan theatre. Agneau will work out daily at the Texan, the hours to be announced later.

Marko letter NEW ORLEANS, Jan. 2.—The new year in the cotton market opened with considerable hedge selling in evidence and gradually this filled up the demand, finally checking any tendency to buy. Holders of long contracts, disappointed over the action of the market, commenced to let go and during the remainder of the session, liquidation from the long side was the dominating influence. Resulting breaks in prices were wide enough to bring in new buying of very moderate proportions but at no stage of the day was there any very effective support of the market. We are inclined to think that too many traders were working on the theory that history would repeat itself and that the drastic decline of last January might be duplicated this year. Declines were wide a year ago but it should be remembered that the real basis for this downward movement in prices was the highly unsatisfactory situation among the mills. This January the mill situation is as strong as it was weak a year ago. The decline a year ago continued runny. March traded at 16.75, runny, March traded at 16.75. Then an upward reaction of a cent and a half a pound occurred.

"Tex" is Doing Nicely After Major Operation

MIAMI, Fla., Jan. 2. (P)—Tex Rickard was doing nicely today after an operation for appendicitis. The Madison Square Gardener underwent an appendectomy in a hospital last night while 15,000 customers were yelling their approval of his new \$250,000 greyhound racing plant at its Miami Beach premiere. Attending physicians said it would be ten days, however, before the promoter would be able to see his latest project in operation. Tex did not prove as accurate in judging his physical ailments as he often has in predicting gate receipts. What he thought was a slight attack of indigestion proved to be acute appendicitis. The promoter was slightly ill Monday afternoon. Yesterday he was a little worse. When all of the home rem-

edies for indigestion failed, Rickard called a physician who diagnosed immediately and recommended an appendectomy. It was performed early last night and the promoter was declared "in good condition," when he was wheeled from the operating room. Little less than two hours was required. The greyhound track meeting is scheduled to run for ninety days. The sports impresario had intended to stay here for some time, however, attending to preliminary arrangements for the Stribling-Sharkey bout on February 27. This bout was announced last week by Rickard and to accommodate an expected 50,000, the promoter said he would build a special arena. He would be able to direct these arrangements from his hospital bed.

"NO SPEED LIMIT" LAW
NOW IS TWO YEARS OLD

DETROIT, (AP)—Michigan's "no-speed limit" law applied to motor- ing on state highways outside of incorporated villages and cities is now two years old, and seemingly is on the statute books to stay. Under the terms of the law all restrictions on speed were removed and that clause of the new statute was given widespread publicity. Somewhat less notice was given to other clauses of the act that its sponsors regarded as more vital as safety factors than a speed limit.

While the law fixes no maximum speed limit—formerly 35 miles an hour on Michigan highways—it places other responsibilities upon the motorist. One re-

quirement is that the car must be "under control" at all times; a second safety factor is the threat of reckless driving charges against the motorist regardless of the speed at which he may be driving his car.

Almost every known traffic offense aside from speeding is classified as "reckless driving" under the Michigan law. Driving with defective brakes and "cutting in"

or "weaving" in and out of a traffic line, are among the offenses classified as "reckless" handling of an automobile.

The law was sponsored and drawn on the theory that, given all other elements of safety in driving, speed itself was not dangerous on the open road—provided the car was always "under control." Its effect, proponents of the law say, has been to make

caution the primary objective of Michigan motorists, who like to "step on it" when they reach the open road.

MEXICANS HONOR DEAD IN CLASHES WITH U. S.

VERA CRUZ, Mexico (AP)—Work has been started here on erection of a monument to the Mexicans who died in the war of 1914 with

the United States and in 1914 when the Americans occupied this city. Contributions to the monument fund were received from all parts of the country. The bodies of the Mexicans who died here in the fighting attending the American occupation, which are now buried in various cemeteries, will be transferred to a crypt to be built into the monument.

PUBLIC PROTESTS TRAM SERVICE BY WALKING

NICE, France, (AP)—This city has a new and unique strike on its hands. This time it is the general public that is striking.

A month ago the transportation employees struck for higher wages. When the company finally granted their requests, local papers announced that the trouble was ended.

ed. Now it is seen that the trouble has but started. The public, incensed at both the transportation company and the employees, has decided to walk whenever possible. Except during the rush hours the cars now run practically empty.

Family Pedals Round World

On a bicycle tour around the world, Adolf Herr and family recently arrived in Lisbon, Portugal.

The party consists of Herr, aged 41, his wife, Hedwig, 25, their daughter, Irmgard, 24, and two brothers-in-law of Herr, 24, and 29. The five left Berlin July 8, 1928, and have already pedaled through Germany, Hungary, Austria, Czechoslovakia, Serbia, Rumania, Bulgaria, Luxembourg, Switzerland, Belgium, Holland, France, Spain and Portugal. From Portugal they will visit Spain, Morocco, the Canaries, and South America. They plan to complete their journey in 1931. The little girl generally rides in a side car attached to Herr's cycle, but when on good roads pedals on a tiny wheel of her own.

Chapter 45.

Byrd's hands were trembling like small delicate leaves as she handed the note to her mother.

Mrs. Hamilton took it gingerly, holding it a minute before she opened it.

She was always cool under the most trying circumstances, but Byrd knew that it took a mighty effort to maintain that deadly composure of hers.

Byrd suspected that same fear that was creeping around her own heart had given her mother that strange look about the eyes, but she had a chin like Mary Queen of Scots that contradicted her tell-tale eyes.

That fifth sense that we sometimes develop in times of great crises seemed to reveal the letter to both of them before it was opened.

"Well, I guess this means just one thing," Mrs. Hamilton said, bringing her lips shut like a trap. "Read it," said Byrd, in a trembling voice.

"Dear Mrs. Hamilton," Chet had written, "Pat and I are going to get married. Don't worry about us, for it's the best thing that could happen to either of us. Save a family blessing for us. Will write soon. Chet."

Byrd looked at her mother blankly, and her mother stared back at Byrd, each lost in her own thoughts over the strange elopement.

"Let me see it," said Byrd, reaching out for the letter and reading it carefully.

"I wonder what your father will say," said Mrs. Hamilton, in a voice considerably shaken. "We could have given them such a nice wedding. And I'd started Pat's trousseau just after you were married. It seems wicked to go off and get married without a minister or her own father and mother—and in her old clothes. I should think Pat would have been ashamed!" And she cupped her lips like a flabby flower.

Liberal allowance for your old cleaner

You won't have to postpone owning a Greater Hoover until your old, inefficient cleaner is completely useless. You can know the joy of Hoover cleaning immediately. You can have the aid of the Hoover all through these summer months, when the daily burden of blown-in dust is so great and Hoover helpfulness means so much.

Just call us on the phone. We'll make an appraisal of your old machine—without the slightest charge or obligation—and give you a generous allowance for it on the purchase of your new Hoover.

Just think what a difference having the Hoover is going to make in your enjoyment of the summer! Think of the extra time you'll have for rest—the extra vitality you'll have for play—if the Hoover is relieving you of the burden of cleaning—and doing it better than it's ever been done before.

"Positive Agitation," the revolutionary cleaning principle of the Greater Hoover, sets a new standard of home cleanliness. If you don't know the untold difference which this amazing principle makes in cleaning, you owe it to yourself to have a Hoover demonstration. Only \$6.25 down, balance monthly, if you wish to purchase.

You can now get "Positive Agitation" in a new popular-priced Hoover model. Ask us about it.

dollars," he said, harshly.

Byrd's face went blank and then chalk white.

"Fifteen thousand!" she gasped.

"Why, Jack, you never could get that for it anywhere."

"Well, I'll let you have it for ten. And that's final!" he said, with tight lips.

Without a word she filled out the check that Progress Polk had given her and handed it to him. He signed some of the papers and pushed them toward her.

"Now be sure to run right over to Daddy Polk and see if they're all right," he said, sneeringly.

With her head swimming, Byrd murmured a faint good-bye and got out of the room. She felt as if she had just struggled out of a poisonous swamp.

She did go back to Mr. Polk, and after he had pronounced everything in order, she left them with him for safe keeping.

She wondered all the way home how Jack's disgraceful ruin would affect Larry. Was the Builders' Supply stock above criticism? And she wondered if Larry would be furious that she had purchased the stock without his knowledge. And what excuse would she have for not having consulted him.

She felt before she got home as if the worries of the whole world were resting on her slender shoulders!
